

Women in Science: Materials

Frontiers in Materials

2018 Impact Factor 2.689

The inaugural **Women in Science: Materials** collection in *Frontiers in Materials* will showcase the standout research of female researchers across the breadth of the materials sciences.

Manuscripts will span all sections of the journal, theory, experiment and methodology, all with applications to compelling problems. To be considered, the corresponding author must be female.

Guest Editors

Prof Maria Bignozzi
University of Bologna

Prof Patricia Krawczak
IMT Lille Douai

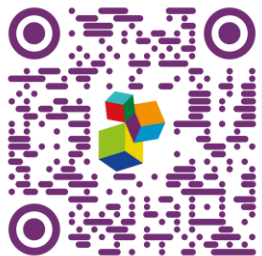

Prof Emilia Morallon
University of Alicante

Prof Ming Xu
Huazhong University of
Science and Technology

Prof Jackie Johnson
University of Tennessee
Space Institute (UTSI)
